### **REASONS FOR ALLOWANCE**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

### **ABSTRACT**

An adapter is disclosed for use in mounting an ancillary unit in an engine block which has at one end a lateral flange (10) formed with an aperture for mounting of the ancillary unit. The adapter comprises a casing (112) for mounting on the end face of the engine to overlie the 10 aperture, which casing is provided with an O-ring (130) for effecting a seal between the casing (112) and the aperture in the lateral flange of the engine. The casing has a larger diameter portion separated by a shoulder (131) from a portion of reduced diameter, a retaining sleeve (132) axially slidable over the reduced diameter portion of the casing (112) and a O-ring (130) held captive between the axial end of the retaining sleeve (132) and the shoulder (131).

The following is an examiner's statement of reasons for allowance: The prior art made of record along with the limitations of the independent claim do not disclose the casing (112) has a larger diameter portion separated by a shoulder from a portion of reduced diameter, a retaining sleeve (132) being axially slidable over the reduced

diameter portion of the casing thereby holding the O-ring (130) captive between the axial end of the retaining sleeve (132) and the shoulder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
